has successfully completed the online, non-credit Professional Certificate

# Google Advanced Data Analytics

Those who earn the Google Advanced Data Analytics Certificate have completed seven courses that include hands-on, practice-based assessments and are designed to prepare them for advanced roles in data analytics and entry-level roles in data science. They are competent in exploring large datasets, applying data analysis techniques, and building models to extract insights. They are also competent in machine learning, predictive modeling, and statistics.

## Letter of Recommendation

**To Whom It May Concern,**

It is with great pleasure that I recommend Zeid Ombotimbe who participated in the Innovation Workshop 2025 at Skoltech in Moscow.

During the workshop, Zeid Ombotimbe demonstrated outstanding dedication, creativity, and the ability to work effectively in an interdisciplinary and international environment. Their contribution to the team was highly valuable – particularly during the stages of developing innovative solutions, market analysis, and the final project presentation. Their ability to quickly grasp and apply new knowledge, along with a proactive approach to solving complex problems, made them one of the most distinguished participants.

I am confident that Zeid Ombotimbe will bring energy, a strong work ethic and analytical thinking to any academic or professional setting they choose to pursue.

Sincerely,  
Lawrence Stein  
Vice President for Entrepreneurship and Innovation
